BOJAN MIJATOVIC

FRONTEND DEVELOPER

SOME OF MY PROJECTS

My portfolio

Link: https://portfolio-bojan-mijatovic.vercel.app/

Here is my portfolio to show skills that I have mastered for now.
In time I will update it with some new projects and apps.
For this project, I was using html/scss and js.

Bookstore

Link: https://book-list-oop-project.vercel.app/

To create this project I was using OOP classes, crud operations,
and for storage localStorage.

E-Commerce Template

Link: https://ecommerce-website-phi.vercel.app/

This challenge for me is mostly on HTML & CSS/SCSS. There's a
JS included for the mobile navigation toggle and carousel slider.
In this project, I was using a pre-processor scss, flexbox, and
grid for layout.

COURSES AND CERTIFICATES

The Complete JavaScript Course 2021: From Zero to Expert /
by Jonas Schmedtmann
JavaScript - The Complete Guide 2021 (Beginner + Advanced) /

PROFESSIONAL SUMMARY

I am a self-taught front-end developer
who completed some of the best premium
Udemy courses, read several books about
web development, including Eloquent
Javascript, You Don't Know JS.

Coded a dozen websites on my own,
besides others that I coded-along as
practice for the skills taught in the Udemy
courses. I love clean, simple, and fun
design that is easy to navigate,
responsive, and intuitive to use.

Work on practice apps to learn to program
in pure Javascript. I work primarily with
HTML, CSS/SCSS, & JavaScript and
venturing on to learn React, and my next
plan is to raise my knowledge to a higher
level in Next.js.

Also, I have experience in designing,
developing, deploying, and maintaining
websites while communicating with
clients.
